

## Millbrook Combined School and Nursery PE Vision

Millbrook School is committed to supporting excellence in PE through providing inclusive, challenging and enriching Physical Education lessons including a broad and balanced range of activities which promote high standards of performance and a positive attitude towards sport and physical activity for life. To this purpose, we offer our pupils a four-themed strategy that will continue to deliver its aims.

- **Curriculum PE**  
At Millbrook School, all children in Key Stage 1 and Key Stage 2 access two lessons of PE a week. Children in Foundation Stage have 1 PE lesson a week and continuous provision of opportunities within Physical Development.
- **Recreational Sport**  
Millbrook School offers a wide range of extra-curricular sporting activities including football, netball, cricket, hockey, rounders and athletics. Children in Key Stage 1 are able to take part in after school Multiskills clubs. Children of all abilities are encouraged to participate and realise their own individual potential.
- **Inter-house Sport**  
All children at Millbrook School have the opportunity to compete for their House in a competitive sporting environment.
- **Elite Sport**  
Children have the opportunity to represent Millbrook school in a range of different sports. The school is entered into local primary football and netball leagues and takes part in local festivals in a wide range of different sports including cricket, tennis, rounders and hockey. Links with local clubs ensures that children identified as talented in a particular sport are given the opportunity to develop further out of school.
